Projects

Webnesia Ecommerce

2023

<https://ecommerce.webnesia.com/>

This project i created for my exploration to make an online store that sells fashion products that can calculate shipping cost automatically based on customer's address.

AkuPastiTinggi | Landing Page

2022

<https://www.behance.net/gallery/167685957/AkuPastiTinggi-Landing-Page>

A landing page for health supplement designed from scratch and developed nicely using WordPress & Elementor page builder.

SlimmerFitterStronger | Company Profile Website

2022

<https://www.behance.net/gallery/167686619/SlimmerFitterStronger-Company-Pro-file-Website>

This project was cloning the website, client wanted to clone their existing website to be published in WordPress. I used elementor page builder to clone the website to make exactly the same design as the sample.

AMR Digital Marketing Company Website

2023

<https://amr-marketing.com>

Re-design all pages on the existing website to achieve better interface design with simple and modern style, user-friendly experience, speed optimized and fixed responsiveness to look great on all devices.

Surya Fortuna Lawfirm Website

2024

<https://suryafortuna.co.id>

Re-design all pages on the existing website to achieve better interface design with simple and modern style, user-friendly experience, speed optimized and fixed responsiveness to look great on all devices.

CreativeZ Agency Website

2024

<https://crz.webnesia.com>

Build a website for a digital agency with requested design style which looks modern, dark theme design, elegant and trustworthy.
